

Nach einem Update kommt beim Anmelden von WG1/2 die Fehlermeldung:
"Konnte Tabelle wgvers nicht finden."

The image shows a screenshot of the 'Oracle ODBC Driver Connect' dialog box. The title bar is blue with the text 'Oracle ODBC Driver Connect' and a close button (X). The dialog has a light gray background. It contains three input fields stacked vertically on the left. The first is labeled 'Service Name' and contains the text 'WGPLUS'. The second is labeled 'User Name' and contains the text 'NRW'. The third is labeled 'Password' and contains the text 'xxxx'. To the right of these fields are three buttons: 'OK', 'Cancel', and 'About...'. The 'OK' button is the top one, 'Cancel' is the middle one, and 'About...' is the bottom one.

Das liegt bei einer ORACLE-Datenbank häufig an der Nichtbeachtung der Groß-/Kleinschreibung. Den Service Namen "WGPLUS" in Großbuchstaben schreiben!
